

Risk acceptability policy — RDM

Document ID	RMP-001
Revision	ee83944
Date	2026-10-01
Status	proposed

Contents

1 Risk policy 3

Id: RMP-001 · Status: proposed

1 Risk policy

Severity / probability	Rare	Unlikely	Possible	Likely
Critical	Medium	High	High	Block
Serious	Low	Medium	High	High
Minor	Low	Low	Medium	Medium
Negligible	Low	Low	Low	Low

- **Low** — acceptable
- **Medium** — justify
- **High** — justify
- **Block** — unacceptable

Proposed, not yet approved. An agent wrote this policy; a maintainer approves it by reviewing it and setting status: approved.

The criteria RDM's own risks are evaluated against, set before any individual risk decision. The matrix is the risk-analysis skill's four-by-four. A Low risk is acceptable; a Medium or High risk is acceptable only with a recorded justification (who accepted it, and why further reduction is not reasonably practicable); Block is never acceptable.

These cells are RDM's choice for RDM, not values from ISO 14971.
